## ENVIRONMENTAL EDUCATION E-SPORTS WORLD CUP

### (CANADA REGION)

#### Overview

The world and Canada are facing threat from COVID-19 pandemic. In addition, Canada is frequently affected by natural disasters, as well as climate change, which increasing the disasters and impacting the losses of lives and personal properties. These are the signs: that the earth is collapsing faster than we thought. Therefore, it is imperative to promote "environmental education and disaster prevention knowledge" for all.

This event is promoted by the Tzu Chi Foundation, Bonio Inc., the Environmental Protection Department, and the Department of Information and Technology and Education of the Ministry of Education, partner with the PaGamO online learning platform, local environmental protection groups and the government. We hope that, through this fun event, which is integrated into e-sports games, combine with online and offline, interactive learning and practice, the students can comprehensively strengthen their environmental literacy and enhance their awareness of disaster prevention. Also, we expect the students can establish the correct knowledge, skills, attitudes and values on environmental protection and disaster prevention.

## How to Apply:

1. Please go to Tzu Chi x PaGamO Environmental Education E-sports World Cup Website (<https://www.esportsopen.pagamo.org/2021tzuchi-ep-worldcup>) select "Canada", will direct to PaGamO event website to sign up. You need to log in or register an account to fill out personal information to complete.
2. After completing, please log on to PaGamO website to ensure you are successfully registered. If there is any issue, please contact customer service.

## Game Rules:

1. Purpose: The competition is conducted on the PaGamO gaming platform, and the game is to answer questions and occupy areas/territories. The purpose of this competition is in the category of "Environmental Protection and Disaster Prevention Knowledge". The environmental protection and disaster prevention knowledge uses the questions of Professor Ye from the Institute of Environmental Education, Taiwan Normal University.
2. PaGamO Specific Rules: **WARNING! The event organizer reserves the right to cancel or disqualify any players who violate to the followings: (which may affect the qualification):**
  - i. Multiple PaGamO account by one player
  - ii. Incomplete or incorrect information on application
  - iii. Nationality of non-registered nationality
  - iv. Other malicious behaviors of bullying and besieging other players that have been reported and verified.

- v. *Granting access to your account to someone else for the purpose of participating*
- vi. *After verifying identity, the information does not match*

3. How to play PaGamO Game:

- i. *At the beginning of the competition, each player will get seven territories, which will be randomly generated in the arena, and they will need to answer the questions to occupy the territory with other players.*
- ii. *In the process of answering questions, you will randomly get "aggressive props" in the e-sports world. During the game, players can use offensive props to make strategic layouts to achieve the purpose of the competition strategy. In addition, the game store also provides item trading.*
- iii. *Online daily has a fixed energy value (stamina) limit. If the energy value is used up, you cannot continue to answer questions on that day to accumulate points.*

*\*Attacking the land: 6 points will be deducted for each correct answer, 15 points will be deducted for each wrong answer*

*\*Training land: Four points will be deducted for each correct answer, 10 points will be deducted for each incorrect answer*

*Please use the energy value properly, and don't guess the question at will, which will affect the game score.*

- iv. *The daily energy value adopts the automatic recovery system. After the energy value reaches the upper limit, it will no longer automatically recover. If the contestant continues to answer questions during the recovery process, the system will continue to recover, and the total energy value of the day will have a chance to exceed the energy value Upper limit.*
- v. *The PaGamO competition provides selection of roles. Each role will be different according to the character's ability bonus. Please choose the competition role properly.*

\* \*PaGamO Character Ability Chart \*

	<b>Land's Health Points</b>	<b>Gold Points</b>	<b>Basic Energy</b>	<b>Basic Damage</b>	<b>Land's Gold Growth</b>	<b>Energy Recharge</b>
<b>Miya</b>	100%	120%	100%	100%	125%	100%
<b>Maro</b>	120%	105%	100%	100%	100%	100%
<b>Batar</b>	100%	100%	100%	110%	100%	100%
<b>Sophie</b>	100%	100%	100%	105%	100%	120%
<b>Kachina</b>	100%	100%	110%	100%	120%	100%
<b>Amir</b>	100%	110%	120%	100%	100%	100%

4. International Online Preliminaries:

- i. *The website will be opened on 11/26/2021 (Friday) 12pm(EST), and CLOSED at 6pm (EST)11/29/2021(Monday)*
- ii. *Game scoring will be calculated by the advisors from each country. All players will need to log in everyday to answer questions. You may only need to log in once or twice each day. (No need to standby)*
- iii. *Indonesia, Canada and Singapore, ranking is based on the total points of the individual from preliminary matches in the country, the top 30 winners will advance to the overseas Global Finals.*
- iv. *The games will use PaGamO e-sports-"Challenge Map".*
- v. *The daily basic energy limit of the preliminary round is 300 points. Depending on the character's special ability bonus, the energy limit will be different. If the energy value of the day is exhausted, you will not be able to continue to answer questions to accumulate points.*
- vi. *If all the land is lost when other players are rushing for territory during the competition, the system will regenerate seven territories for the contestants to the arena.*
- vii. *Scoring :*
  - *(Number of correct answers X7 + number of territories X3) = total individual points, (online preliminary rounds are calculated from the cumulative number of correct answers in four days and the number of territories occupied by the players at the end of the preliminary round)*
  - *In order to maintain the fairness of the game, repeated correct answers will not be scored twice.*
  - *According to the game's individual points rankings, the promoted players are selected*
  - *If the points are the same, it will be judged as the first to reach the final integration time.*

## 5. International Final

- i. *The global finals will be held on March 27 (Sun), 2022. The locations for each country are as follows. :*
  - *Taiwan: TBD*
  - *Malaysia: Online*
  - *Indonesia: Online*
  - *USA: Online*
  - *Canada: Online*
  - *Singapore : 30A Yishun Central 1, Singapore 768796)*
- ii. *The global finals will be held at the event site, and players from various countries will compete in a 20-minute PaGamO e-sports matches. Ranking will be determined based on the total individual points. The global top 10 winners, will participate in the award ceremony (or online).*
- iii. *The global finals will use PaGamO e-sports-"Challenge Map".*

- iv. *In the case of losing all the territory, due to the event of attacking other players for territories, the system will not allow the player to regain the territory.*
- v. *Please ensure that the mobile devices are working well and the Internet connection is smooth before participating in the "online" competitions. All players are responsible for their own mobile devices or network conditions.*
- vi. *Scoring:*
  - *(Number of correct answers X7 + number of territories X3) = total individual points.*
  - *The winner's rankings will be based on total individual points.*
  - *If the points are the same, the time of who reaches the final points first will prevail.*

## **Advance Qualification :**
